Curso B2 Grupo A Nº. _____ Asignatura Inglés

Madrid, 14 de octubre de 2015

5

If I were an influential politician I would try to make everyone happier, but ~~trying~~ keeping in mind our nation's possibilities. To begin with I would increase investment in education as it is the base for a well formed society. Well educated citizens would be able to ~~govern~~ ^{govern} ~~in a~~ ~~fair society~~ in a way that is the best for ~~its members~~ ~~the society~~. Next, I would ~~try~~ to invest in science. Even though ~~on~~ the short term this investment would not yield profits, ~~on~~ the long term, we would become a truly developed society that is ready to face an increasingly challenging future. With this, more skilled people would be needed and, thanks to education, unemployment would decrease thus improving our society.
